ABOUT THE DETAILING MAFIA

The Lineage: Being the progeny of a 38-year-old Manmachine Group, The Detailing Mafia is a high end car cleaning and detailing studio, with experience of decades and a portfolio of 200+ Studios Pan India, providing services with unmatched quality, reliability, durability and an attention to the details like no other. The Detailing Mafia is focussed and en route on creating platforms that herald the boom of the automotive detailing industry in the Indian market, creating endless opportunities and realize the true potential. We strive harder to bring the best services to form awe-inspiring results any car owner and enthusiasts can be proud of.

Our Obsession with Quality: Our Belief is that each and every vehicle needs to be treated with the utmost care, to deliver the finest possible outcome for the vehicle and thus for our brand. With intricate details and a keen eye for perfection, The Detailing Mafia strives to outperform the rest. Be it a Chevy or a BMW or a Mercedes, trust us on un-compromised and superior treatment in every aspect of our product and service. At the epitome of detailing industry The Detailing Mafia brings you a wide range of car care products from the best companies across the globe. We closely work with the companies that focuses on manufacturing the products without compromising the quality. Blending the experience with innovation and technology, our products go beyond just ultimate presentation and superior protection. It's a competitive world out and creating a never lasting impression is vital for building a long term business relationship, so our main focus revolves around bringing best car care methods in the Indian market.

PEDIGREE

We are a 38 year old company and an ISO 9001:2008 compliant firm. Cleaning is our core business!

SPECIALIZED DETAILING

We use world class and imported detailing products on the surface of your vehicle, in tailor made systems specially designed to get the right look and protection for your beloved machine!

EXCLUSIVITY

Manmachine is the exclusive distributor for all products used by The Detailing Mafia across the sub-continent. These premium detailing products are reserved solely for The Detailing Mafia Studios and are not available in the retail market.

HIGHLY SKILLED STAFF

Our Staff is provided periodic training of new and improved ways to treat and protect vehicles and deliver best detailing results.

WORLD CLASS PRODUCTS

We Import in International standards of car detailing to the Indian automotive market. Products like #Labocosmetica and Clarity Coat help to deliver the highest standards of Detailing.

LARGE PORTFOLIO OF SERVICES

We boast the largest portfolio of vehicular detailing services which can be provided under a single roof. Be it Ceramic Coating, Denting Painting, Paint Protection Film, Peel-able paint and much more.

DIGITAL MARKETING SUPPORT

Our digital team of experts provide complete support in setting up new social media campaigns, promoting it forward & capturing the targeted audience.

FOUNDER'S MESSAGE

“

From day one, my vision has been clear and its to bring world-class car care to our customers, backed by an obsession for quality and an uncompromising commitment to detail. Every vehicle that enters our space is treated with the same care and precision as if itwereourown.

At The Detailing Mafia, we go beyond delivery a service instead we createanexperience. We handpick our products from the best manufacturers across the globe, ensuring that each one meets the highest standards of performance, safety, and durability.

My promise is simple: every customer will experience the pinnacle of detailing excellence, where craftsmanship meets passion.

”

Anil Sethi

Founder & MD - Manmachine Group

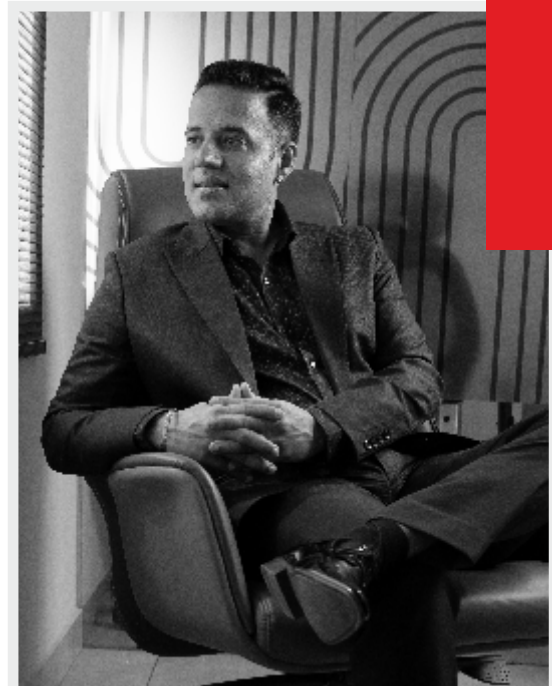

“

In contemporary competitive automotive landscape, creating a lasting impression is more than an advantage it'sanecessity. At The Detailing Mafia, we have built our reputation by blending experience, innovation, and advanced technology to deliver results that stand apart.

My role is to ensure that our brand not only meets but consistently exceeds expectations. This means investing in the best products, training our teams to perfection, and constantly evolving our techniques to stay ahead of the curve.

For us, detailing is not just a business but it's a craft, a passion, and a promise to our customers that their vehicles will receive nothing less thantheverybest.

”

Kunal Sethi

CEO - The Detailing Mafia

WHY WE ARE DIFFERENT

OUR OBSESSION WITH QUALITY

We believe every vehicle deserves the same level of care as a priceless collectible. Whether it's a daily driver or a rare masterpiece, our service standards never waver. By partnering with the world's most trusted car care brands, we ensure that only the finest products touch your car's surface. With modernized technology, precision techniques, and true detailing artistry, we deliver best results that don't just impress but they amaze.

COMMUNITY & CULTURE

We're more than a detailing brand – we're a movement.

Our community brings together car enthusiasts, expert detailers, and visionary entrepreneurs under one powerful network. Through regular meets, workshops, and training programs, we fuel growth, skill-building, and collaboration. As part of India's fastest-growing detailing network with global ambitions, we are redefining the culture of automotive care.

WE DON'T JUST DELIVER SERVICE – WE DELIVER CONFIDENCE

For us, detailing goes beyond aesthetics. Our mission is to protect, enhance, and preserve the legacy of every vehicle we touch. By empowering our partners and delighting our customers with unmatched results, we ensure that every car leaves our studio with confidence – and every owner leaves with pride.

Trusted by Thousands. Supported Like No Other.

1,00,000+ Satisfied Customers Across India

We've built a loyal and growing customer base through consistent quality and unmatched service.

BE DIFFERENT

#Labocosmetica was born from the very Italian love of beauty, chemistry, cosmetics, and of course, motocars. This has fuelled our vision when creating the #Labocosmetica range of professional car care products

Unique, surprising, inimitable, *Simply Different*

LABORATORIO ITALIANO
COSMETICI AUTO

Instagram.com/Labocosmetica_Official

CERAMIC COATING FROM LABOCOSMETICA

Labocosmetica, from Ma-Fra, offers reliable, thoroughly tested wide range of car care products that satisfies the demand of every enthusiast of the detailing industries and suits the requirements of professionals. The history of this brand has its deep roots in the distant half of the sixties. With the famous slogan "cosmetics for your car," Ma-Fra has given rise to Labocosmetica.

WHY LABOCOSMETICA?

Labocosmetica is a new form of coating with amazing SELF-CURING TECHNOLOGY (SCT) delivering unique silk-mirror effect and forms a physical and chemical barrier to the surface.

FEATURES OF LABOCOSMETICA

CERAMIC COATING

- RESIN-BASED coating ensuring effective stratification, improved cross-linking rigidity, thermal resistance, high protection and resistance to abrasions.
- Superior to traditional physical inorganic coatings.
- Labocosmetica coating like Blindo is efficiently combined with the new SELF-CURING TECHNOLOGY (SCT), offers a very short curing time of just 30 minutes.

Patented 3pH WASH SYSTEM CERAMIC WASH

- The 3pH® wash system revitalizes the superior protection on the vehicle's surface with its specific pH.
- Helps in proper Decontamination of the vehicle before and after ceramic coating application.
- Maintains the respective characteristics of previously applied nano ceramic protection.

CERAMIC WASH & NANO CERAMIC COATING

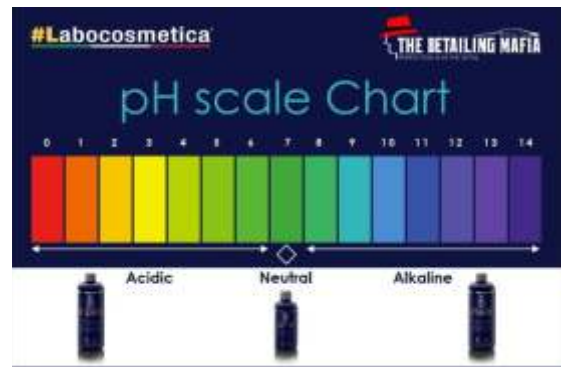

CERAMIC WASH

What is the 3ph system by #Labocosmetica?

The #3ph system by #Labocosmetica was designed to help detailers and car wash owners during one of the key steps in car care, whether the car is protected or not, namely washing. When washing a car, thorough cleaning is essential. However, in order to remove the dirt and contaminants that have built up on the bodywork, it is often necessary to use a product with a specific pH.

There are different types of pH:

- An Alkaline pH will remove all residues of organic origin, such as road dirt, oil, gnats and organic residues.
- A Neutral pH will remove static dirt during the mechanical action.
- An Acid pH will remove all residues of inorganic origin, such as limescale, water marks and acid rain residues.

The #3pH system by #Labocosmetica acts on all types of dirt and contaminants, decontaminating car paint and removing all mineral salts, road dirt, limescale, acid rain residues and chemical contaminants that are not always visible to the human eye, which make the colour fade and lower the performance of the protection previously applied on the car. The #3ph system uses an innovative method based on the pH of each of our products to remove dirt and contaminants in a targeted and effective way, but without corroding the previously applied protective products. They are also safe to use, since they are certified to ensure safe use even on delicate paints and surfaces.

Small Car ₹2000, Sedan ₹2500, Luxury/MUV/SUV ₹3000, High-End Luxury ₹3000, Bike ₹1500

NANO CERAMIC COATING

Labocosmetica #HPC paves the way to a whole new category of coatings dedicated to the overcoat. Thanks to its "nano hydro-gel system" technology, it creates a hydrophobic membrane with a polymeric matrix made up of "building blocks", which form lattices and adhere directly to the surface at room temperature, creating a highly resistant and elastic layer. #HPC is resistant to chemical, saline and uv ray attacks which cause corrosion and non-removable stains it also has antifouling properties its distinguishing feature is its antistatic and antifouling capacity, leaving the car clean for longer.

Benefits:

100% Chemical resistant • Anti-static • UV protection • Ideal alloy Wheel coating • Water repellent/hydrophobic • 3D gloss

PRICING:

Small Car ₹11000
Sedan ₹12000
Luxury/MUV/SUV ₹13000
High-End Luxury ₹14000

A close-up photograph of a silver multi-spoke alloy wheel on a red sports car. A white protective film overlay is applied to the wheel's surface, with a white line and a red dot indicating a specific point of interest. The car's body is a vibrant red, and the background is a soft-focus outdoor setting.

**CLEAR SELF-HEALING
PAINT PROTECTION FILM**

THE ADVANCED CHEMISTRY **BEHIND ULTRASHIELDX** PAINT PROTECTION FILM (PPF)

TPU (Thermoplastic Polyurethane) is a next-generation polymer that combines the flexibility of rubber with the strength and durability of plastic. This versatile material serves as the foundation of **UltrashieldX's** Paint Protection Films (PPF)—engineered for unmatched clarity, resilience, and adaptability. By precisely calibrating the ratio of hard and soft segments within the TPU structure, our partner manufacturers craft films that resist rock chips, surface stains, and UV degradation—while maintaining the elasticity required to wrap around even the most intricate vehicle curves. UltrashieldX utilizes advanced TPU chemistries, including aliphatic segments for long-term optical clarity and polycarbonate or polycaprolactone-based soft segments to enhance flexibility and impact resistance.

This material science excellence is what drives the superior performance, long-term durability, and effortless installability of every UltrashieldX PPF—delivering protection you can trust and clarity you can see.

TAILORED ROLL LENGTHS

We offer customizable width and length conversions by producing shorter rolls for easier handling or longer jumbo rolls to boost production efficiency.

TAILORED COATING SOLUTIONS

UltrashieldX provide custom coating services with a broad selection of adhesive and hard coat chemistries, compatible with various substrate options to suit your requirements.

ENGINEERED BY EXPERTISE

Our materials science experts collaborate closely with you to develop tailored PPF solutions, blending your technology with ours to deliver superior protection and performance.

COMPREHENSIVE OEM-GRADE PPF TESTING

At UltrashieldX, every Paint Protection Film undergoes a comprehensive range of OEM-grade testing protocols to ensure peak performance, long-term durability, and consistent reliability in real-world environments. Our testing process is meticulously engineered to validate the film's quality across material science, environmental endurance, and application behavior—meeting or exceeding global automotive standards.

From chemical composition and surface resilience to UV stability and ease of installation, each film is rigorously evaluated under simulated conditions that mimic years of exposure to sunlight, road debris, temperature extremes, and mechanical wear. This scientific approach guarantees that every UltrashieldX PPF delivers flawless performance on every vehicle contour, in every climate.

Our in-depth testing covers, but is not limited to:

VISUAL TESTING

- Optical clarity and haze evaluation
- Surface finish inspection (gloss, texture uniformity)
- Defect detection (bubbles, spots, lines, inclusions)
- Color stability and appearance under light conditions

ANALYTICAL TESTING

- UV resistance and yellowing assessment
- Chemical resistance (fuel, oil, cleaners, environmental contaminants)
- Self-healing performance under heat or friction
- Thermal cycling and weather aging simulations

CHARACTERIZATION TESTING

- Tensile strength and elongation
- Peel adhesion and tack performance
- Scratch and abrasion resistance
- Layer thickness measurement and uniformity
- Surface energy and coating durability

ULTRASHIELDX PAINT PROTECTION FILM

UltrashieldX paint protection film is undisputedly best-in-the-class gloss, as well as its self-healing, hydrophobic, anti-fouling, and solvent resistant properties enabled by the superior top coating technology. It also provides excellent elongation and easy installation thanks to its premium non-yellowing TPU and advanced adhesive technology. UltrashieldX PPF products have successfully proved its excellence and potentiality by OEM references of major global PPF brand companies.

CLEAR AND COMPLETE PROTECTION AGAINST

Various life scratches

Stone chips

Snow-removing sand & calcium chloride

Bug acid & bird droppings

Painted surface discoloration

All sorts of water/oil stains & contaminations

Unique design

Surface damage by various impacts

Paint scuff

Door dings

SUNROOF PPF WITH ADD-ONS FEATURES IR REJECTION 96%

UltrashieldX introduces the advanced Sunroof Protection Film (SPF)—now with 96% IR rejection for unmatched heat control. Designed to absorb and rapidly dissipate heat, SPF keeps your vehicle cooler, enhancing overall driving comfort. It blocks 99% of harmful UV rays, protecting both passengers and interior surfaces from damage and fading. With superior thickness and durability, SPF also improves safety by withstanding extreme weather and road impacts. Choose UltrashieldX SPF for lasting protection, comfort, and performance—all under the sun.

“MORE THAN JUST PROTECTION”

CLARITYCOAT

COLOR CHANGE TO PURPLE WITH PROTECTION, NO DAMAGE TO OEM PAINT

FACTORY COLOR WITH CLEAR PROTECTION

GRAPHICS ARE ENCASED IN CLARITY COAT. EDGE LIFTING OR PEELING IS NO LONGER AN ISSUE

CLARITY COAT

Instagram.com/ClarityCoat

SPRAY-ON/PEELABLE PAINT PROTECTION BY CLARITY COAT

Spray-able paint protection system that not just looks and feels like regular factory paint, but the one that delivers unrivalled protection from everyday road debris. Using Clarity Coat, colour change and customization is easy while protecting the factory OEM finish.

WHY CLARITY COAT?

Sprayable Paint Protection System(SPPS)

- Best-In-Class Spray-On protection
- Easy to apply
- Absolutely invisible
- Complete coverage
- Seamless protection
- Leaves no residue after removal
- Completely removable

Colour Change

- Paint-like finish
- Enormous opportunities for customisation
- OEM colour encapsulation
- Leaves no residue after removal
- Completely removable/Peelable
- Doesn't fade in sunlight expose like traditional vinyl wraps
- Hydrophobic makes perfect match for marine transport

Graphic Customization

- Enhances visual aesthetics
- Meet colour trend
- Visualization of color design
- Enriches the finish
- Leaves no residue after removal
- Completely removable

PEARL PIGMENTS

Pearl Pigments are very fine inorganic and organic pigments that come in an almost endless array of metallic, interference and pearlescent colors. They can be used in almost any sort of medium, or even used dry as long as they are glazed or cleared over. Some uses for pearl pigments include: automotive coatings, glues, acrylic paints, gels and varnishes, clear resins, nail polish and eye shadow, water colors, screen printing and other types of inks, fabric paints, master batches and even glass and plastic production.

Pearl Pigments are usually mica or silica based powdered color additives that are coated with metal oxides and are non-toxic and inert, since they contain no actual metal like some other pigments they will never rust or tarnish. Since most pearl pigments are semi-transparent, you can also use different colored base coats as well as different pearl loading and mixing ratios to create even more unique and customized colors. This process works extremely well with our interference and ColorShift Pearls, which change color and hue based on viewing angle resulting in continuously changing colors!

MAIN FEATURES, BENEFITS & USES

- Very stable properties for use in packaging and printing as they do not singe or migrate
- They can be used in the finishing process of all types of materials, including automotive, printing products, plastics and leathers
- Environmentally friendly and thus pose no problem with regard to waste disposal
- They can be easily mixed into any clear substrate
- Stable up to temperatures of 450°C to 800°C
- It is Chemically neutral
- Produce no odor

CAR DENTING & PAINTING

The Car's Paint is often the first thing people notice, especially if the finish is chipped, scratched, or damaged. We use very best products to restore your paint job's original look and feel.

We deal in Paint Booth and use latest SATA paint spray guns and products to give best paint job to your car.

SECRET BEHIND OUR PERFECTION

German Engineering

• SATAjet X 5500 HVLP

The SATAjet X 5500 HVLP is the latest SATA paint spray gun for highest demands. With the X nozzle system, painters are able to cope with all paint systems and application recommendations. In addition, the whispering nozzle noticeably reduces the volume and gives bodyshops a softer, more pleasant painting feeling – all this with reduced material consumption.

AND ACCESSORIES**

GRIT GUARD

Grit Guard, Inc brings a product that easily fits in the bottom of the bucket and acts as a settling filter for preventing wash mitts from getting contaminated with dirt and grits while washing process. Grit Guard brings ultimate game-changing paint-saving tool for ultimate cleaning of the automobiles. It is a patent system of mitt and pad washing that requires no maintenance and no energy.

DIY MAINTENANCE PRODUCTS - BUCKETS

• **Grit Guard 5 Gallon Clear Washing System**

The Grit Guard 5 Gallon Clear Washing System is a superb cleaning kit that includes a heavy-duty 5 Gallon Grit Guard Wash Bucket with a matching leak-proof Gamma Seal Lid and Grit Guard Insert. This Washing System is designed to prevent swirl marks and scratches while washing.

MRP: ₹ 6497

• **Grit Guard Complete Single Bucket (Red)**

The Grit Guard 5 Gallon Washing System with Dolly is the ultimate cleaning kit that includes a heavy-duty 5 Gallon Grit Guard Wash Bucket with a matching leak-proof Gamma Seal Lid, Grit Guard Insert, Knee Pad and Dolly.

MRP: ₹ 5645

• **Grit Guard Single Bucket (Clear)**

The Grit Guard 5 Gallon Washing System is the ultimate cleaning bucket that includes a heavy-duty 5 Gallon Grit Guard Wash Bucket with grit guard.

MRP: ₹ TBA

• **Grit Guard Single Bucket (Red)**

The Grit Guard 5 Gallon Washing System is the ultimate cleaning bucket that includes a heavy-duty 5 Gallon Grit Guard Wash Bucket.

MRP: ₹ TBA

• **Grit Guard Washboard**

The Grit Guard Washboard works in conjunction with the Grit Guard Insert in your wash bucket to separate the grit from the mitt! Like its sister product, the Grit Guard Insert, the Grit Guard Washboard has NO flat surfaces for dirt or grit to be collected.

MRP: ₹ 430

• **Grit-Guard Buckanizer**

Buckanizer attaches to the side of your 3.5 to 7-gallon bucket and provides a spot for you to store your wash mitts, brushes, and other detailing accessories.

MRP: ₹ 982

DETAIL FACTORY

Detail factory brings you a complete line of premium detailing brushes. You can avail any sort of brushes including Tri-Grip ultra-soft brushes, boar or services brushes. **Detail Factory has them all!**

DIY MAINTENANCE PRODUCTS

Ultra-Soft TriGrip Detailing Brush

New TriGrip detailing brushes! Our original brushes changed the game by offering a comfortable grip unlike anything else on the market. With the TriGrip brush line we've further refined our design and added a rubberized triangular grip area for maximum comfort. Available in 2 sizes & 3 colors: Lime & Black | Pink & Blue | Orange & Grey

**MRP: ₹ 2130 (Small)
₹ 2272 (Large)**

Curveball- Large Area Detailing Brush

The Curveball is an all-new concept utilizing our famous Ultra-Soft synthetic bristles in a much larger package. This brush features an ergonomic, full hand grip for maximum comfort when using such a large brush. Available in 3 colors: Lime & Black | Pink & Blue | Orange & Grey

MRP: ₹ 4405

Crevice Brushes

- Crevice brush sets have shorter, stiffer bristles
- Ideal for cleaning dirt and grimes lying in cracks and crevices.
- Set includes one boar and one ultra-soft brush.
- Balanced at grip to reduce user fatigue.
- Available Sizes: Small Set
- Available Color: Red+Black

MRP: ₹ 1982

ProGrip Interior Brush

- Softer bristles than the tire brush but stiffer than ultra-soft
- Curved head profile for better clearance
- Rubberized Grip for maximum stability and comfort
- Larger hole for easier storage

MRP: ₹ 2203

ProGrip Wheel Face Brush

- Flagged-Tip bristles prevent scratching
- Flagged-Tip bristles also improve lathering
- Flared bristles for better coverage
- Ergonomic ProGrip handle design

MRP: ₹ 2477

Bike Chain Brush

The Detail Factory bike chain brush is part of our new Moto line, designed to service motorcycles, ATV's and even bicycles. The bike chain brush feature a 3 sided brush head to make cleaning your bike chain a breeze. On the other end we've included a long, stiff bristle brush for removing mud and debris from the sprockets.

MRP: ₹ 1589

Screwball- Large Area Scrub Brush

- Oversized head for cleaning large areas
- Rubberized ergonomic grip
- Mountable drying/storage rack included
- Chemical resistant handle material
- Metal-Free construction to prevent scratching
- Scrubbing boar hair bristles

MRP: ₹ 5635

Sprocket Cleaning Kit

The Detail Factory sprocket cleaning kit is part of our new Moto line, designed to service motorcycles, ATV's and bicycles. The sprocket kit includes a toothed sprocket scraper as well as a thin sprocket brush. With the sprocket scraper you can quickly remove large debris, then use the brush to give your sprockets a thorough cleaning.

MRP: ₹ 1589

Ultra-Soft™ Drill Brush

We put our Ultra-Soft™ bristles on a high-speed drill! Quickly clean or polish any surface. It's also great for getting into deep recesses like cup holders.

- Ultra-Soft™ bristles
- Universal 1/4" hex shank
- Stainless steel shank
- 2100 RPM max speed

MRP: ₹ 2036

Pick Set

A set of four picks- two hard plastic and two soft rubber. The hard set is great for prying interior panels or pulling out fasteners. The soft set can be used on more delicate surfaces, like digging wax out of crevices in the body.

- Dig out cracks and crevices
- Includes hard plastic and soft rubber sets
- Comfortable ergonomic grip

MRP: ₹ 2036
